Subject: e-ISuite Application Version 1.1.0

Version 1.1.0 of the e-ISuite Application is now available for use. The primary focus of this release is to address known issues and newly identified defects in release 1.0.1 and to add the following new functionality:

- Glide Path
- Message Board Customization (Site Only)
- IRWIN Interface (Enterprise Only)

For more information visit the e-ISuite webpage: <http://eisuite.nwcg.gov>

There are two areas of use for the e-ISuite system:

- e-ISuite Enterprise System accessed via Internet:
  - <https://eisuite-app.nwcg.gov/eisuite/fx/welcome.html#>
- e-ISuite Site Full Install and Patch can be downloaded from the e-ISuite webpage:
  - <http://eisuite.nwcg.gov/new/downloads.htm>

The e-ISuite Enterprise System is hosted on the USFS Fire and Aviation Management National Enterprise Support System (NESS) General Support System (GSS) at the National Information Technology Center (NITC), Kansas City, MO and supports all incidents at an Enterprise level. A NAP (NESS Application Portal) account is necessary for access. NAP Account information can be found on the e-ISuite webpage: <http://eisuite.nwcg.gov>

The e-ISuite Incident Site version will be hosted on the incident server. When a connection to the Internet is available, data can be transferred to and from the e-ISuite Enterprise System. When a connection to the Internet is unavailable, data can be transferred to a portable media device, which can then be taken to a computer with an Internet connection and transferred to and downloaded from the e-ISuite Enterprise System.

For further assistance with access or the installation process, call the I-Suite Helpdesk at (866) 224-7677.
